Remarks

Presenting a truly unique opportunity to own one of Viking Sport Cruiser's newest and most luxurious models in better than new condition. Whether you are looking for a cruising yacht capable of open water travel, a family yacht providing amenities and luxury galore, or a yacht capable of entertaining the most discerning friends and clients, the "Game On" will fit your needs in a style that makes her the center of attention.

The interior is accented with rich leather inlays, premier fabrics, solid suede headliners, and high gloss cherry wood work with exceptional joinery. KVH HD SAT TV throughout and an upgraded Bose surround sound stereo system make the entertainment options state of the art.

The exterior spaces have been designed for maximum entertaining and comfort with special features including bridge SAT TV with DVD, grill, wet bar, two sun loungers, teak decks, and an amazing amount of seating at every turn. While the exquisite lines and luxurious interior styling are sure to get your attention, her speed and performance provide the ride, comfort, and range for which Viking Sport Cruisers is known.

Vessel Walkthrough

Upon boarding from the rich teak swim platform, you will pass by the transom storage locker that conceals the 750lb. davit for the tender or jet ski. A few steps up is the aft deck featuring custom bench seating and a teak accented decking.

Entry to the yacht's elegant interior is gained through the double sliding glass doors accentuating the spaciousness of the salon featuring a custom, U-shaped sofa to starboard and large L-shaped sofa to port. The entertainment center includes an LCD TV that is revealed simply by the push of a button and an upgraded Bose surround sound stereo. The salon is seamlessly joined to the starboard side bar area that includes an ice maker, refrigerator, and storage for wine glasses and bottles.

Forward and to port is the raised dinette that comfortably seats six and provides panoramic views. The lower helm station is to starboard and provides excellent visibility at any speed. The comfortable, modern layout includes matching bucket seats and a state of the art console with a full array of electronics. Forward, down the stairs you will find a unique lower galley design that is open and airy. Granite counter tops, solid teak flooring, and leather wrapped stainless hand rails are impressive as you move aft to the exquisite full beam master stateroom, a feature not often found on a yacht this size.

Natural light is abundant in the mater suite with three large port lights on both the port and starboard sides. On the port side is a vanity with ample storage. The master berth is a centerline queen and this stateroom features a flat screen TV and a private entertainment center. The master head has teak flooring, a walk-in shower, and plenty of natural lighting.

Progressing forward, you will find the VIP stateroom with a centerline queen berth, TV/DVD, full size hanging, cedar-lined lockers, and private access to the guest head. To starboard you will find the guest stateroom which boasts twin berths, ample storage, and a private entertainment system. Access to the flybridge is gained via the teak steps located on the aft deck; the

spaciousness is sure to get your attention. Seating and entertainment options are plentiful and 360 degree views are enjoyed from any location on the flybridge. A large U shaped lounge with dinette table is to starboard. You and your guests are never far from the built in refrigerator and wet bar that includes an electric grill, sink, and ample storage. A smaller settee is to port, and to aft is a raised sun pad with concealed storage. The owner has added a 19" TV on a removable, stainless steel mount and upgraded the stereo for maximum entertainment options. The centerline helm has seating for two, a modern console and controls, and provides excellent visibility in any situation. Clearly this yacht has been designed, built, and equipped to the highest standards and quality inside and out.
